NOTES

Socks are worked from the cuff down on two circular needles.

When changing colors, pick up new yarn from under old to twist yarns and prevent holes. Carry colors not in use loosely along WS of work. If you need to carry non-working yarn across a large number of sts, twist working and non-working yarns every 3-5 sts to avoid long floats. Be sure not to pull the floats tightly when working the next st with that yarn.

You may insert any college or team name in place of "Stanford Cardinal." Use a sheet of graph paper to plan out the name. The sock has 72 sts; most of the graphed letters in Chart C are 6 sts wide, with a few exceptions. Remember that since you are working from the cuff down, the charted letters will be upside down, so that they

appear right side up when wearing the sock. When planning the name, allow 2 or 3 plain St sts between letters. (If the name is long, use a single st between letters.)

For shorter words, use Chart D to fill in the empty space between the beginning and end of the name. Begin the name after the beginning of round (BOR) marker and end it before the marker, centering the name so that you have approximately the same number of sts between the first and last letters and the BOR marker.

SPECIAL TECHNIQUE

Working in the Round with 2 Circular Needles

Divide sts between 2 circular needles. Hold needles so that first needle (Needle 1) is in front and second needle (Needle 2) is in back; the working yarn comes from Needle 1. Needle 1's sts should be on its tip; while Needle 2's sts should be resting on its cable. With opposite end of Needle 1, work across Needle 1 sts as instructed, pulling first st snug to avoid gap between needles. After Needle 1 sts have been worked, slide these sts onto the needle's cable and turn work, so that Needle 1 is now in back and Needle 2 is now in front. Slide Needle 2 sts onto tip of Needle 2. With opposite end of Needle

2, work across Needle 2 sts as instructed, pulling first st snug to avoid gap between needles. Continue working as established, always working one needle at a time, and working the sts on each needle with the opposite end of the same needle, leaving the other needle hanging free.

Grafting Place sts to be grafted onto 2 needles with wrong sides together and needle points facing to the right. Using yarn needle, insert into first st on front needle as if to purl, leaving st on needle. Insert into first st on back needle as if to knit, leaving st on needle. *Insert into first st on front needle as if to knit, slipping st off needle, then into next st on front needle as if to purl, leaving st on needle. Insert into first st on back needle as if to purl, slipping st off needle, then into next st on back needle as if to knit, leaving st on needle. Repeat from * until all sts have been grafted.

Color Confidence

A few simple tricks will make anyone a color expert!

By Kristin Nicholas

As children we delight in opening a new box of crayons and fearlessly experimenting with all the possibilities those colors offer. But somewhere along the way we grow up—and start to doubt our abilities to combine colors.

Many of us feel a little lost when it comes to picking colors for a knitting project. But with a few simple rules and a bit of experimenting, it's easy to rediscover your inner colorist and start creating many-hued masterpieces.

Can you find the complementary colors?

Getting started

A color wheel is an invaluable tool when learning to create new color combinations. A typical color wheel looks like a colorful pie sliced into 12 pieces, arranged like a circular rainbow. Begin by pulling a variety of colors of yarn from your stash, and get ready to start experimenting.

Complementary colors

The most basic color wheel premise involves using colors that are complementary, or opposite each other on the wheel. Complementary combinations include red and green, yellow and purple, blue and orange—you get the idea. These color pairs are guaranteed to pop in an eye-pleasing way.

Drop the wheel

Now, let's take a look at color without using the color wheel. Where to begin? You only need to look out your window—the world's best color teacher is nature itself.

Take, for example, a bouquet of sunflowers set against a blue sky, or a cluster of lilacs. What looks like a pleasing photograph to your eye can be translated into your knitting—just grab your needles and start stitching,

Try sorting your yarn into a color wheel to play with these tips and see what you like!

using shades similar to those in the photograph. The snapshot on the next page shows how well lilac hues translate into knitting yarn.

Open your eyes

Once you really start looking around at your surroundings, you'll see that combining colors isn't as hard as you might think. Grab a digital camera and start clicking away, or pick up a glossy nature magazine. You'll start to see that color combinations are everywhere you turn; in nature, you'll find subtle, beautiful, unexpected, and jarring matches.

Start filing away these natural color ideas into an idea notebook or a folder on your computer. Then, use the photos as a jumping-off point for colors in your projects. Want to change the colors in an afghan pattern you like? Pull one of your favorite pictures and make up a swatch using those colors.

Taking the first step

The very best way to learn to work with color is to jump right in. Like an author with fear of a blank page, a basketful of yarn can be intimidating to a color novice. But just take a deep breath and go! You can start by making striped squares—they're a perfect way to create mini color treatments. Not every square you make will be drop-dead gorgeous, but each one is guaranteed to teach you something new about color. Before long your basket of scrap yarns will become as enticing as that fresh, new crayon box you loved as a child.

Put it all together

When you have plenty of squares, join them together into one big afghan. Next

Nature translates beautifully into yarny designs.

time you're stuck for a color combination for a new project, simply refer to your colorful throw. It will be a source of inspiration and a tool to use for years to come. **K**

Play By the Color Rules

SIMILAR COLORS

For a subtle color effect, try using hues that are all on the same side of the wheel, as shown in this square, which uses three similar shades: magenta, orange, and red. By choosing colors that are all close to each other on the wheel, the effect is very harmonious. The square looks warm and cozy, like the embers in a fireplace.

SIMILAR + COMPLEMENTARY COLORS

Now let's shake things up a bit. Take two of the colors used in the first square (red and magenta) and combine them with a complementary hue (green). By swapping the orange for green, the new square is vibrant and eye-catching. When you combine shades from opposite sides of the wheel, color combinations are less "safe," yet still very appealing.

TERTIARY COLORS

Here's one more quick trick using the color wheel: Imagine a triangle on the wheel, with three equally spaced colors at its points, such as orange, violet and green. This creates a tertiary color combination, which is complex and well-balanced, yet fun and light-hearted. Generally, this effect has a lot of pop and is perfect for kids' designs.

"I doubled up the letters two to a block and paired a monkey with a letter in each block: A for Astronaut, C for Car, and so on. Each linked letter is color-matched with a monkey."

NOTES

Use the intarsia method of knitting, using a separate ball of yarn for each large block of color. Pick up new yarn from under old to twist yarns and prevent holes. Top and bottom borders are worked in one piece. Side borders are picked up afterwards. Blocks are blocked and then sewn together in rows. When all Blocks have been joined, an I-Cord border will be worked in Seed st around the entire Blanket.

NOTES

Cover is worked in three pieces, the Center Panel and two Side Panels.

You may work the Wheat Ear Cable, Reverse Wheat Ear Cable, and Side Panel from the text or the Side Panel Chart.

SPECIAL TECHNIQUES

Bullion Stitch

Bring thread to surface of fabric and insert needle a short space away. Point needle backward so that point emerges near place that thread comes out of fabric. The distance between these two points determines length of knot. Wrap thread round needle 5 or 6 times, then pull needle carefully through coil. While performing this action, hold coil down on fabric with left thumb. Pull working thread through coil until it tightens, and take needle through fabric at point where it first appeared. Coil of thread should now lie neatly on surface.

Twisted Cord

Cut strand 48"/192cm long. Fold in half and clamp ends to work surface.

Place a pencil in fold and, maintaining light tension on strands, hold strands in other hand and spin pencil to twist lengths together. When you can't add any more twist, walk the working end of cord toward clamped end, holding middle of strands away from ends. Carefully coax folded strand to twist around itself, smoothing it to make twists even. Unclamp ends from work surface and holding all ends together, tie knot to secure end, leaving 1.5"/4cm tail. Trim tail.

SPECIAL ABBREVIATIONS

WER Wheat Ear Rib.

LC Insert needle from back to front between first and second sts on left-hand needle, knit second st through front loop without slipping it from needle, then knit first st through front loop and slip both sts from needle.

3 Steps to Perfect Cables

Basically, cables are made by working a few stitches out of order. To hold the stitches, you'll need a cable needle or short double-pointed needle. This example crosses three stitches over three stitches:

1 One at a time, slip three stitches onto the cable needle and hold it in front of the work.

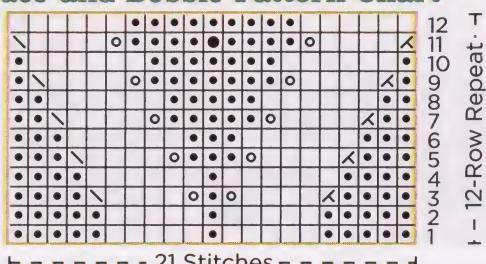

2 Knit three stitches from the left-hand needle.

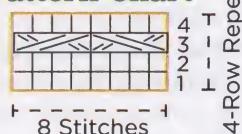

3 Knit three stitches from the cable needle. On the WS rows, purl all six of the cable stitches.

NOTES

Sweater is worked in the round from Provisional Cast-On to Waist, then worked back and forth in rows to underarms. Right and Left Back and Front are then worked separately to beginning of Yoke. Sleeve stitches are cast on and Fronts, Back, and Sleeves are worked for Yoke Base. Back Gusset Insert is worked to join Right and Left Back, then after Back Gusset Insert is complete, remainder of Yoke is worked up to neck edge. When Yoke is complete, stitches are picked up for Sleeves from Armhole openings and Yoke cast-on stitches and worked down to cuffs. Finally, stitches are picked up from Provisional Cast-On at bottom of Body and worked down for Hem. Sweater is worked almost en-

tirely using charts. There are 2 charts for main Body (A and B), 1 for Yoke (C), 1 for Sleeve (D), and 1 for Hem (E). The Body is divided into 6 sections, then Chart B and Chart A are worked once within each section. Each instance of Chart A is called "Chart A Panel" (the same for Chart B). Each of the Body charts takes you from beginning of Body, through Waist and Bust shaping, to end of Body and beginning of Yoke. Each of these 2 charts is divided into sections with specified repeats. Follow pattern instructions and chart notations for chart round and row repeats. While working Body charts, you will change from working in the round to working back and forth in rows.

SPECIAL TECHNIQUES

Provisional Cast-On With waste yarn, make a slip knot and place on crochet hook. With crochet hook in right hand and needle in left hand; bring ball end of waste yarn behind needle. *With crochet hook, cross in front of needle, catch yarn, draw up a loop, and pull it through loop on crochet hook (1 stitch is cast onto needle); take yarn between hook and needle and around to back of needle again. Repeat from * until required number of stitches have been cast on. Work a few chain stitches with crochet hook, then fasten off. These chain stitches will indicate the end of the provisional cast-on that you will unravel. To remove the cast-on, unpick the last stitch and unravel the waste yarn, slipping live stitches onto the needle as they become available.

W&T (Wrap and Turn) When wrapping a knit stitch, bring yarn to front, slip next stitch, bring yarn to back, slip same stitch back onto right-hand needle, turn. When wrapping a purl stitch, bring yarn to back, slip next stitch, bring yarn to front, slip same stitch back onto right-hand needle, turn. When you come to a wrapped stitch, complete wrapped stitch by picking up wrap and working it together with wrapped stitch.

3-Stitch Picot Bind-Off *K2tbl, slip stitch back to left-hand needle, [k1, slip stitch back to left-hand needle] 3 times; repeat from * until all stitches have been worked. Fasten off remaining stitch.

S2kp2 Slip 2 stitches together as if to knit 2 together, k1, pass 2 slipped stitches over the k1 (2 stitches decreased).

NOTES

Body is worked in the round to underarm, then set aside while Sleeves are worked in the round to underarm. Sleeves and Body are joined, worked in the round to the Neck opening, then worked back and forth in rows to the end.

When changing colors, pick up new yarn from under old to twist yarns and prevent holes. Carry color not in use loosely along WS of work.

To maintain single-row stripes when working back and forth, work a RS row in first color, then slide sts back to opposite end of needle, and work another RS row with second color. Turn and work 2 WS rows in the same manner, working with first color, then second.

SPECIAL TECHNIQUE

Grafting Place stitches to be grafted onto 2 needles with WSs together and with needle points facing to the right. Repeat Decrease Round every 4th round 7 times—136 (164, 192, 220, 248) sts remain. Work until piece measures 10"/25.5 cm from beginning.

Shape Bust

Increase Round * [K1, M1, knit to 1 st before marker, M1, k1, slip marker] twice—140 (168, 196, 224, 252) sts remain. SLEEVES

With A and double-pointed needles, cast on 56 sts. Join to work in rounds, taking care not to twist sts. Place marker for beginning of round. Work in Ruching Pattern until piece measures approx 4"/10cm from beginning, end with Round 14 of Ruching Pattern. Shape Sleeve

Increase Round * K1, M1, knit to last st, M1, k1—58 sts. Repeat Increase Round every 13th (8th, 6th, 5th, 5th) round 5 (8, 11, 14, 16) times—68 (74, 80, 86, 90) sts. Work until piece measures 17 (17, 17.5, 17.5, 18)"/43 (43, 44.5, 44.5, 45.5) cm from beginning, end with same color stripe as for Body. Cut yarn. that beginning of row is now at center Front, with 34 (40, 46, 52, 58) Front sts on either end of needle; sts should now be in the following order on the needle, from right to left, with RS facing: Right Front, Right Sleeve, Back, Left Sleeve, Left Front.

Shape Neck and Yoke

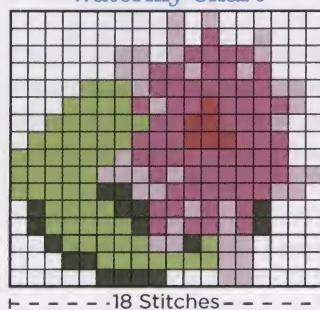

Note Neck and Yoke are shaped at the same time; read entire section through before beginning. Because the Stripe Pattern (worked flat) is worked over 4 rows (2 RS rows followed by 2 WS rows), you are working Yoke and Neck shaping on a B row. This means that every other B shaping row is worked on a WS row.

Shape Yoke * (RS) Rejoin B. Decrease 8 sts every other row (every B row) 23 (24, 28, 32, 34) times, as follows: On RS B row, [work to 2 sts before marker, ssk, slip marker, k2tog] 4 times, work to end; on WS B row, [work to 2 sts before marker, p2tog, slip marker, p2tog-tbl] 4 times, work to end. 1 Cast on all the stitches onto one double pointed needle. Work the stitches onto the other two needles, dividing them evenly.

How to Knit in the Round

2 Make sure all the stitches are untwisted and arrange in a circle. Pick up the two end needles, letting the other needle rest on a flat surface so its weight doesn't pull on the stitches. Join to work in the round by slipping the last stitch on the last needle over the first stitch on the first needle, then slipping the first stitch to the end of last needle (in other words, the two stitches change places). Continue to work in a clockwise direction, with the outer "rim" of the circle facing you.
